

EXCELLENCE 2022 AWARDS

Congratulations to the 2022 NISOD Excellence Awards Recipients!

A membership organization committed to promoting and celebrating excellence in teaching, learning, and leadership at community and technical colleges.

Foreword

Since its beginning in 1978, NISOD has sought to serve, engage, and inspire higher education faculty, administrators, and staff. Our conference, resources, and publications reinforce the importance of teaching and leading and celebrate instructors, staff, and administrators who make good on the promise of the open door.

The NISOD Excellence Awards were established in 1991 to provide NISOD member colleges with an opportunity to recognize individuals doing extraordinary work on their campuses. Since then, more than 30,000 recipients have been honored with the Award by their colleges. Using their own criteria, NISOD member colleges submit the names of men and women each year who have demonstrated an outstanding commitment and contribution to their students and colleagues. All individuals whose names are submitted are recognized as NISOD Excellence Award recipients. Each Excellence Award recipient receives a unique silver medallion engraved with The University of Texas and NISOD insignias and adorned with a burnt orange ribbon.

The Excellence Awards tradition gives NISOD the distinct privilege of honoring so many of our community colleges' best educators. We are indebted to NISOD member colleges for their continuing support of this annual celebration. While the pomp and circumstance of the Excellence Awards Program is conducted with a refined touch, the overarching statement is that teaching and leading on the front lines of the community college mission rest on the shoulders of these outstanding individuals.

Congratulations

2022 NISOD Excellence Award Recipients!

Equity must not just be a buzz word, but an action that is evident across all facets of higher education. Equity should be a mindset shared by all stakeholders that guarantees all students are met where they are and provided the same opportunity as their peers to achieve the greatest success.
